Visitors bring cheer to children's home

THE children of Pondok Penyayang Raudhah in Gombak recently hosted a group of visitors.

Pondok Penyayang Raudhah is home to 62 youngsters aged between four and 20 years old. It was established to provide shelter for underprivileged children as well as a rehabilitation centre to troubled youths.

The visit by some 15 staff members of Atcen, was in conjunction with the Atcen One charity programme.

The visitors, who included Atcen chief executive officer Ernie Chen, mingled with the youngsters and participated in a joyous singing session to entertain them. In return, the children performed dances and songs for the visitors.

Atcen chief financial officer Jeremy Lee presented basic necessities worth RM800 and vouchers worth RM2,000 to the charity home on behalf of the company.

Atcen has continuously contributed to and worked with community service organisations to give back to the community. The Atcen One programme is in line with the company's core values and determination to cultivate the culture of giving, sharing and promoting civic consciousness among corporate citizens in Malaysia. One percent of the organisation's total sales revenue will be channelled to the fund and contributed to the less fortunate.
